

Problem with images vanishing in Outline.

Although the problem appeared on a site upgraded from 7.1.4 to 7.3.4, I've since discovered it's also the same on my current working site. Unlike other events posted over time on the same day, images posted by the same member are grouped, even if they're posted hours apart.

Also, the last image of any group vanishes. The process is complex, but these thumbs may help.

RED PHOTOS

Photo 1 posted at 10am
Photo 2 posted at 10.05am

Photos were NOT posted in bulk but appear in same block .

BLUE PHOTO

Photo1 posted at 10.10am

RED PHOTO

Photo 3 posted 12.30pm.
Photo 1 has vanished.

BLUE PHOTO

Photo 2 posted at 12.30pm but appears in same block as photo 1 posted over two hours before.

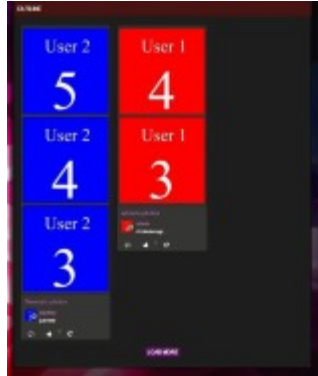

RED PHOTO

Photo 4 was posted at 2.30pm, but appears in same block as photo 3 posted 2 hours earlier.

Photo 2 has vanished.

BLUE PHOTO

Photo 3 was posted 1 minute after Blue photo 2 (top right) Note that Photo 1 hasn't vanished.

BLUE PHOTO

Photos 4 and 5 were posted in bulk at 3pm

Photos 2 and 1 have vanished.

I'm not concerned about photos posted within a few hours of each other being in the same block, although it would be nice if they were separated if they're posted (say) an hour apart.

I'm very concerned about photos vanishing.

9 photos posted by two members, but only 5 showing at the end of the day.
