IMPORTANT!!!
Automatic part of upgrade is completed. Please do the following to complete upgrade process:

- Clean **/cache/**, **/cache_public/** and **/tmp/** folders via FTP or SSH, leave only .htaccess file there if one exists
- Recompile system language file from Admin Panel -> Settings -> Languages Settings -> Languages
- Clean **/cache/** folder again
- Recompile Forum language file for all templates from Admin Panel -> Modules -> Forum -> Manage Forum
- Remove **/upgrade/** directory
